

OPSC Covid-19 Protocols

What if...

1. Any family member or player that is ill should stay home from training and games.
 - a. The above player must immediately be tested and self-quarantine.
2. Any player that has tested positive for the covid-19 virus should refrain from all training and game activities, and report this to his/her coach.
 - a. The coach will immediately contact club/league officials.
3. If it has been determined that the infected player has made contact with the other players on his/her team those effected players must quarantine from the rest of the team immediately.
 - a. All effected players should be tested and self-quarantine immediately.
4. If the affected player(s), while being positive, for the covid-19 virus has trained with his/her teammates then the entire team must forfeit the remainder of the season.
5. If the affected player(s), while being positive, for the covid-19 virus has trained with his/her teammates, and has played in a game then the entire team and the opposing team must forfeit the remainder of the season.
